**Department of Homeland Security (DHS)
Office for Bombing Prevention (OBP)**
Presents

***Private Sector Counterterrorism (PSCT) Awareness Workshop
for Public Health sector***

Date: 19 May, 2010 (Wednesday)
Time: 8:00 am – 4:30 pm
Location: University of New Mexico (UNM)
College of Nursing / Pharmacy Conference Room
Albuquerque, New Mexico

Who should attend

This workshop is designed to improve the knowledge of hospital security managers, emergency medical technicians (EMTs) and other public health officials by providing exposure to key elements of soft target awareness, surveillance detection, and improvised explosive device (IED) recognition.

The workshop will provide the participants an opportunity to:

- Gain insight into terrorists' objectives and trends related to tactics, techniques, and procedures
- Recognize potential indicators and warnings of terrorist activity
- Receive an overview on current types of IEDs being used
- Review theory and practices for Threat/Vulnerability Assessment, Protective Measures, Surveillance Detection, and Incident Management
- Gain an understanding of the current terrorist threat and efforts underway by DHS and partner agencies to address these threats and resources available to assist the private sector

Registration

Participation is limited to 200 due to the seating capability of the venue location and registration will be provided on a first come, first serve basis. To register for this event, please email the following information to: Rudy.holm@dhs.gov

Name, organization, job title, email, tel #

This workshop is free of charge though attendees will be responsible for their own lunches.
