You have nine (9) months from the date on your EMT Course Completion Certificate to complete your initial state licensing examination. You have to complete the entire testing process within two (2) years, if necessary, to obtain your NM state EMT license. Failure to complete your state examination within two (2) years will require you to take the entire EMT course over before you can re-apply for a state licensure.

There will be no processing deadline for each test site. When the site is filled, it will be closed and applicants will be scheduled for the next available site.

SEE BACK OF PAGE PLEASE
